

## **DTI now accepts GCash payment for services**

The Department of Trade and Industry (DTI) is now accepting payment for the various services of its selected agencies such as the Philippine Shippers' Bureau (PSB); Bureaus of Import Services (BIS), Export Trade Promotion (BETP), Product Standards (BPS); and Board of Investments (BOI) through the GCash Bill Pay option, one of the various initiatives of the DTI e-Commerce Team.

Available to all Globe and Touch Mobile (TM) subscribers, the GCash e-Payment facility is a system that will enable clients to use their GCash wallet as an option to pay for services transacted over-the-counter at the DTI Head Office.

Registration is done by typing in: REG <4-digit MPIN>/<Mother's Maiden Name>/<First Name>/<Last Name>/<Address>/<Telephone Number with area code> and sending it to 2882.

Example: REG 1234/Reyes/Johnny/Cruz/2 Scout Reyes QC/023717883

The sender will receive a text message confirming that he has successfully registered. It is a must to memorize the MPIN as it will be required in every GCash payment.

The next step is to transfer cash to your GCash wallet by simply going to a Globe Business Center or any authorized GCash outlet such as SM Department Store customer service counters, selected Tambunting, Villarica, and Cebuana Lhuillier pawnshops, and other outlets that accept cash-in transactions. Show the required identification to the teller. Give the teller the cash, and the authorized GCash outlet will send directly the GCash to your mobile phone.

Then, key in the following payment instruction:

BILLPAY <space> AMOUNT <space> MPIN <space> INSTITUTION CODE  
<space> ACCOUNT REFERENCE NUMBER and send it to 2882.

Example: BILLPAY <space> 1500 <space> 1234 <space> BIS <space> 07TRI0001

Institution Code refers to the specific DTI Bureau/Office to where the payment will be credited; while Account Reference Number refers to the Order of Payment Number found on the Order of Payment Slip (OPS), which is issued over-the-counter by a DTI Account Officer who will identify the transaction amount/fee the client needs to pay.

If the amount is in thousands, do not place comma; if the amount includes centavos, this should not be more than two digits. It is also important to note that special characters such as P or \$ are not accepted.

If amount keyed in is less than what is required to facilitate the transaction, key in another syntax code for the balance payment using the same or different Order of Payment # (whichever is applicable to the Bureau/Office), or pay to the Cashier of the Bureau/Office (where you applied) the computed balance.

If amount keyed in is more than what is required, carry over excess amount to succeeding transactions, or apply for payment reversal to the concerned DTI office.

In lieu of an Official Receipt (OR), the OPS issued personally or through e-mail, stamped “*paid through GCash*” and signed by the authorized DTI Account Officer will serve as the OR.

GCash will charge P1, in addition to the transaction amount specified in the OPS, as short message service (SMS) transaction fee from the subscriber’s Globe or TM airtime load.

For more information, call the DTI Direct at 751.3330, GCash Hotline 739.2882, or GCash Mobile Hotline 2882 (free call).

### **Fees that can be paid through GCash**

For BETP

- Renewal fee for Bonded Manufacturing Warehouse
- Forebearance fee
