

# DUAL USE GOODS

*Dual-use items are goods, software, technology that can be used for both civilian and military applications. Export of these items without license is a violation of the Republic Act 10697 or the Strategic Trade Management Act*

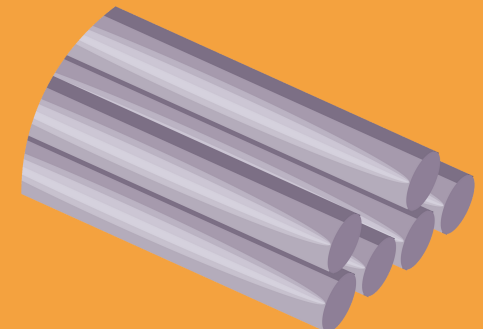

## EXAMPLES OF DUAL-USE GOODS

Carbon  
Fiber  
1C010

Machine Tools  
2B001

Aluminum Alloy  
1C002

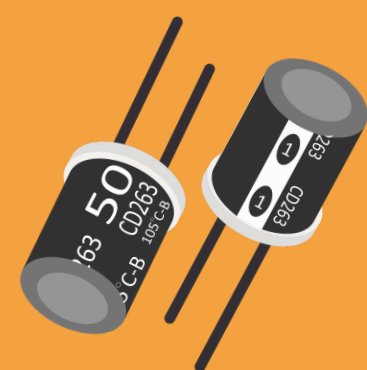

Sodium Sulfide  
1C350

Spark Gap  
3A228

UAVs  
9A012

Capacitor  
3A201

## MORE EXAMPLES

- |  |  |
|--|--|
| 1A227 High-density radiation shielding windows                               | 3A225 Generators/ frequency changers                         |
| 1B117 Batch mixer  | 3A233 Mass spectrometer                                      |
| 1C002 Metal alloy, metal alloy powder  | 3C003 Organometallic compounds of aluminum, gallium, iridium |
| 1C005 Conductors   | 4A004 Systolic array computer, optical computer              |
| 1C531 Human and animal pathogens and "toxins" (ex. viruses, bacteria, fungi) | 5A001 Telecomm systems, equipment, component                 |
| 2A226 Valves   | 5A002 Information security systems (encryption)              |
| 2B001, 2B201 Machine tools   | I6A003 Instrumentation cameras                               |
| 2B230 Pressure transducer  | 6A003 Lasers   |
| 2B231 Vacuum pump  | 7A001, 7A101 Accelerometer                                   |
| 2B350 Reaction vessel, agitator, condenser                                   | 8A002 Pumpjet propulsion systems                             |
| 2B352 Freeze-dryer, fermenter, centrifuge                                    | 9B006 Acoustic vibration test equipment                      |
| 3A001 Semiconductor switches or diodes                                       |  |
