

### TOO GOOD-TO-BE-TRUE DEALS?

Be cautious.  
Contact the merchant  
to validate the offers.  
*Iwas-scam!*

*SV3D1XB TW3*

1

### USE HARD-TO-GUESS PASSWORDS

Mix alphanumeric  
and special  
characters.

MORE TIPS

### CHECK THE URL or WEBSITE ADDRESS

Visit the seller's office  
or call their telephone  
numbers to check if  
they exist.

2

### GIVE REQUIRED INFORMATION ONLY

*Para iwas-hackers!*

# ONLINE SHOPPING SECURITIPS

6

### USE SECURE PAYMENT ONLY.

Most online shops accepting credit card payments use an SSL (Secure Sockets Layer) encryption to ensure secure transactions. A website has SSL installed if the URL starts with https instead of just http.

5

### READ THE TERMS, CONDITIONS AND PAYMENT METHODS

If they do not suit you, look for other websites that fit your needs.

7

### LOG-OUT YOUR ACCOUNT AFTER EVERY TRANSACTION

Be hacker-free. Totally secure.
