Product details <i>(attach separate sheet/s if necessary)</i>						
Description of the Commodity and/or Service	NSGL Code	HS or CN Code	Brand	Model	Quantity & Metric Unit	Total Value: (USD/PHP)
Digital-to-Analogue Converter	3A001.a.5.b.1	854231	EMJ Integrated Circuit X	ICX#456863	300,000 pcs	\$300,000

Tips:

- Please provide a clear and concise product description.
 - Please list each item, including in the description, the product name, and the manufacturer, if appropriate. Also include the part/ model number, all the specific details of any modification, and any other details (Serial No., Chemical Abstract Service (CAS) Registry Numbers, if appropriate) that would assist in clarification/ identification of the item (e.g., part number 1162-02 - trigger rubber gasket; AN/XXX-1 communications system; Methyl Phosphonyldifluoride (CAS 676-99-3)).
 - Kindly provide the suffix to model/part no., if any. Use of abbreviations and in-house terms should be avoided. Where possible give the function/ technical description of each product in brackets.
 - In case of software or technology transfer: identify the software or technical data to be transferred, the end item or system it relates to, and the type of data contained in the documentation (e.g., drawings, schematics, blueprints, briefings, proposals, et al.) If you are exporting a specific document or proposal state, the exact title of the document to be exported. In case of encryption, provide a brief technical description including the primary purpose of the item and the type of encryption used in the product or technology (e.g., 128-bit RC4 for secure e-mail, 2048 RSA for key exchange).
- Please provide the NSGL code of the item.
 - Insert NSGL Code. Example: ML1.a. for submachine guns or 1C350.46 for triethanolamine (102-71-6).
 - In the case of software or technology transfers, the NSGL Code of the software or technology needs to be identified, as well as the hardware to which it relates. Example: ML22.a as it relates to the production of ML1.a. (this means technology classified as ML22.a for the production of “widgets” classified under ML1.a.)
- Insert the six (6) digit Harmonized System (HS) code or ASEAN Harmonized Tariff Nomenclature for each item. An eight (8) or ten (10) - digit HS code may also be provided.
- Please indicate the brand/ maker’s name and model/part number of the goods, where applicable.
- State the quantity (e.g., number/ amount) of each end item, major component, and system per annum (e.g., 100 pcs, 2000 kg, 500 l et al.). Please give the appropriate unit., e.g., pieces, sets, kg, etc. in which the quantity of the goods is expressed. Vague terms such as “unit(s)” or “each” is not acceptable.
- Enter the currency (USD or PHP, preferably USD) and value of the proposed transaction per the purchase order/ contract.
